

PeaceHealth**Mission**

We carry on the healing Mission of Jesus Christ by promoting personal & community health, relieving pain & suffering, and treating each person in a loving & caring way

Values

- Respect
- Collaboration
- Stewardship
- Social Justice

Vision

Every PeaceHealth patient will receive safe, evidence-based, compassionate care; every time, every touch

Southwest**Mission**

As the leader in the provision of health services in our entire community, we emphasize clinical and service quality, promote accessible and affordable care, and work with others to improve health status

Values

- Respect
- Teamwork
- Integrity
- Safety
- Excellence
- Compassion

Vision

Exceptional Medicine, Extraordinary Care. Every Person.

- **Mission:** The affiliated organization will continue to serve whole communities and all patients, regardless of their ability to pay
- **Values:** The affiliated organization will continue to live, pursue and fulfill the core values of Social Justice, Respect, Stewardship, and Collaboration.
- **Quality, Safety, and Service:** The affiliation will advance the commitment to and achievement of high levels of quality, safety and service, as well as provide enhanced access to care.
- **Provider Collaboration:** The affiliation will recognize and enhance the collaboration and partnership with physicians and other healthcare providers.

- **Broad/Accessible Services:** The affiliation will respect patient choice and enhancing options to access services in their own communities.
- **Our Employees:** Throughout and beyond the affiliation, we will honor our people in accordance with our four core values.
- **Integration and Operating Efficiencies:** The affiliation will aggressively seek operating efficiencies and system integration.
- **Simplicity:** The affiliation will operate with the least complex structures and the most efficient processes as soon as practical.

- **Financial Responsibility:** The affiliation will enable sustained financial strength and the continuation of the PeaceHealth Mission.
- **Integrity of the System:** PeaceHealth must have essential control and authority to effectively integrate and manage as one system.
- **Resilience of appropriate regional, local and system control:** Structure must assure that local, regional and system control are appropriately balanced and distributed.
- **Scalability and Flexibility:** The structure must be “scalable” and flexible to allow the continued growth of PeaceHealth. The Affiliation should be attractive to other healthcare organizations which may consider joining PeaceHealth in the future.
