1	2021 Energy Code Updates	Washington State Building Code Council	The state building code council regularly reviews the Washington state building code, as outlined in chapter 51-04 WAC and RCW 19.27A.025, to evaluate revisions made to the codes by the national model code committees, and to consider proposals for statewide code amendments. Additionally, RCW 19.27A.160 directs the council to adopt energy codes that incrementally move towards achieving a seventy percent net energy consumption compared to the 2006 Washington State Energy Code. The estimated effective date of the 2021 codes is July 1, 2023.	<a href="#">Pre-Proposal</a>	<a href="#">Proposal</a>		04/15/22	07/01/23	CONCERNS	Remy Kerr remyk@wsa.org
1	Hospital Construction Review	Department of Health	Hospital Construction Review - The Department of Health (DOH) is considering amending licensing regulations to align with the 2018 federal and national construction standards, namely the Facility Guidelines Institute (FGI)'s Guidelines for Design and Construction of Hospitals and Guidelines for Design and Construction of Outpatient Facilities. According to the Pre-Proposal, adopting current standards would allow facilities to take advantage of newer construction methods. This change would also provide the opportunity to be consistent with widely-recognized standards that are vital to the health and safety of hospital patients and staff. A report detailing draft proposals in response to the initial draft of revisions to the WAC was recently released. (WAC 246-320-500 thru 600).	<a href="#">Pre-Proposal</a>		<a href="#">Report on Draft Proposals (10.18.18)</a>	Intended: Spring 2019		MONITOR	Remy Kerr remyk@wsa.org

1	Public Option Health Care Contracting	Health Care Authority	HCA is developing rules to align with the requirements of E2SSB 5377. This bill provides that if a public option plan is not available in each county during plan year 2022 or later, hospitals licensed under chapter 70.41 RCW receiving payment from one of the agency's benefit programs or its medical assistance program must contract with at least one public option plan to provide in-network services to that plan's enrollees. The bill also provides that the agency may adopt rules including levying fines and taking other actions necessary to enforce compliance when a hospital must contract with a public option plan. During the course of this review, the agency may identify additional related changes that are required in order to improve clarity or update policy.	<a href="#">Pre-Proposal</a>	<a href="#">Proposal</a>				STRONG CONCERNS	Andrew Busz Andrewb@wsa.org

1	Hospital Charity Care	Department of Health	<p>The department is considering amending chapter 246-453 WAC, Hospital charity care, to align with changes made in SSB 6273 and SHB 1616. Both bills add several definitions to RCW 70.170.020 that modify or replace definitions currently in chapter 246-453 WAC. Additionally, both bills amend RCW 70.170.060; SSB 6273 creates new opportunities for patients to apply for charity care that are not currently addressed in chapter 246-453 WAC and SHB 1616 increases income thresholds for charity care eligibility and requires hospitals to provide prescriptive discounts in lieu of discounts based on a sliding scale. To comply with changes made by SSB 6273 and SHB 1616, the rules may need revisions. The department will also consider adding a new section to address requirements for clarity and conciseness.</p> <p>Additionally, the department had previously worked with interested parties on a rules project responsive to SSB 6273 under CR-101 filed as WSR 18-18-073 and CR-102 filed as WSR 22-02-016, but is withdrawing that project to refile a new CR-101 that allows the implementation of additional statutory changes made by SHB 1616 in 2022.</p>	<a href="#">Pre-Proposal</a>					MONITOR	Cara Helmer Carah@wsha.org

1	Behavioral Health Agency Rules	Department of Health	<p>This rule-making project is phase two of a multi-phase project to overhaul the licensing and certification rules for behavioral health agencies. The first phase focused on bringing the regulations up-to-date with recent legislation and addressing areas of clean up that had been identified since the department began regulating behavioral health agencies in 2018. In phase two of this work, the areas that will be considered include:</p> <ol style="list-style-type: none"> <li>1. Supporting a behavioral health agency's ability to provide services for cooccurring mental health and substance use disorders.</li> <li>2. Improving the ability for an individual to have continuity as they transition through levels of care.</li> <li>3. Scoping rules to align more closely with the specific rule-making authority in RCW 71.24.037.</li> <li>4. Further examining specific topics identified during phase 1 such as deeming, telehealth, and applied behavioral analysis.</li> <li>5. 1	Prescription Label Translation and Accessibility Requirements	Pharmacy Quality Assurance Commission	<p>On September 8, 2021, the commission received a petition requesting pharmacies provide accessible medication label options for patients. On October 22, 2021, the commission voted to approve the petition and consider rule making. Minimum requirements for outpatient prescription labeling are described in WAC 246-945-016, but does not reference accommodations for patients who are visually impaired, blind, or have other disabilities requiring additional prescription label options provided by their pharmacy. Clear comprehension of prescription drug label information is a matter of public health and safety for all persons, regardless of ability, and opening chapter 246-945 WAC would help align state regulatory standards with patient needs.</p> <p>The commission also received a petition on January 13, 2022, requesting that translations of prescription directions on prescription labels be made available in multiple languages for ambulatory (community-based) patients. The petition included an additional request to amend WAC 246-945-417 in order to establish a deadline by which pharmacy outpatient dispensing systems must comply with a requirement to translate prescription medication directions. The commission voted to approve the petition and consider rule making pertaining to the provision of translated prescription information by pharmacies on January 28, 2022. Improving prescription information comprehension for individuals for whom English is not their primary language is also a matter of public health.</p>	<a href="#">Pre-Proposal</a>					MONITOR	Remy Kerr remyk@wsha.org
1	Hospital Financial Transparency	Department of Health	E2SHB 1272 addresses many health system transparency topics. Specific to this rule making the bill strives to increase transparency in hospital financial data. Rule making is being considered to implement this portion of E2SHB 1272. The bill requires the department to revise the uniform, hospital financial reporting system to further delineate hospital expenses and revenue, and monies received by federal, state, or local government in response to national or state-declared emergencies. Instructions for hospital financial reporting are provided by the department in the Accounting and Reporting Manual for Hospitals, which may need updates to comply with the new requirements.	<a href="#">Pre-Proposal</a>					CONCERNS	Remy Kerr remyk@wsha.org

2	Retired active pharmacist license status	Department of Health	On March 26, 2020, Governor Inslee signed Proclamation 20-32 to help increase the number of health care workers available to meet the needs of patients during the coronavirus disease 2019 (COVID-19) pandemic. This proclamation included a provision that allows a pharmacist with a retired active pharmacist license status to practice pharmacy. Specifically, the proclamation amended WAC 246-863-080(2), which was effective at that time, to allow holders of a retired active pharmacist license status to practice pharmacy while the proclamation remains in effect. This emergency rule reinstates the retired active pharmacist credential and allows a pharmacist to apply for a retired active pharmacist license status. During the course of this review, the agency may identify additional related changes that are required in order to improve clarity or update policy.	<a href="#">Pre-Proposal</a>					MONITOR	Cara Helmer Carah@wsa.org
2	Nursing Assistant Standards Update	Nursing Care Quality Assurance Commission	NCQAC identified that chapter 246-841 WAC, excluding WAC 246-841-520, 246-841-720, and 246-841-990; and chapter 246-842 WAC need to be updated to reflect best practices, eliminate redundancy, and make other necessary revisions. Legislated work by NCQAC with key interested parties in 2018-2020 confirms the identified need for updating the rules. The coronavirus disease 2019 (COVID-19) pandemic magnifies the need and urgency for changes to the rules which may eliminate barriers to career advancement for nursing assistants to help address the nursing assistant shortage in health care. Specifically NCQAC is considering: (1) Repealing chapter 246-842 WAC. Chapters 246-841 and 246-842 WAC are similar. Repealing chapter 246-842 WAC may eliminate unnecessary redundancy, which creates confusion about requirements. Any requirements that may need to be retained could be moved to chapter 246-841 WAC; (2) updating the rules overall to reflect the most current standards and practice, clarifying and updating curriculum and testing requirements for training programs, and eliminating barriers to career advancement for nursing assistants to help address the nursing assistant shortage in health care; and (3) standardizing the scope of practice for nursing assistance as allowed by law. The scope of practice for nursing assistants varies depending on the work setting. NCQAC believes standardizing the scope of practice across work settings could eliminate confusion.	<a href="#">Pre-Proposal</a>					MONITOR	Katerina LaMarche katerinal@wsa.org

2	Amending the amount of time building owners may apply for an exemption to the building performance standard under WAC 194-50-150.	Department of Commerce	The clean buildings performance standard requires certain buildings in the state to meet energy performance metrics over time. The standard exempts several building categories from compliance with the standard, for example, buildings scheduled for demolition or facing financial hardship, through a department of commerce (commerce) approval process. The rules promulgated in chapter 194-50 WAC contain a process for building owners to apply for exemptions. WAC 194-50-150 states that building owners may apply for an exemption no sooner than 365 days prior to the date of compliance. However, commerce has received feedback from stakeholders that, if an exemption application is denied by the agency, building owners require more time to bring buildings into compliance given the amount of time and financial resources it may take. Thus, commerce has concluded that providing a greater window of time for building owners to apply for and for commerce to grant exemptions is in the public interest and is likely to result in more buildings being compliant with the standard by the statutory compliance date.	<a href="#">Pre-Proposal</a>					SUPPORT	Remy Kerr remyk@wsha.org

This rule making will also address changes in how complaints will be resolved with final orders. For affected retro participants who experience increased loss ratios, they may be subject to a negative bias resulting in their refunds being reduced or additional premium assessed. 3	"Student Intern" Definition	Department of Health	Recent legislation passed during the 2021 legislative session amended the statutory definition of "agency affiliated counselor" to include "a student intern, as defined by the department." Agency affiliated counselors are counselors whose credential is dependent on employment at a behavioral health agency. Some individuals without a credential, such as students under the supervision of agency staff, may also provide services at an agency under statutory exemption. Rule making is necessary to implement E2SHB 1504 and define "student intern" and when a student may be considered an agency affiliated counselor.	<a href="#">Pre-Proposal</a>					MONITOR	Cara Helmer Carah@wsa.org
3	Addition of Interstate Licensure Compacts into BAP Process	Department of Health	Washington state provides a streamlined process that allows certain professions, such as allopathic physicians, osteopathic physicians and surgeons, and physical therapists to become licensed in multiple states through a interstate compact license. The appropriate licensing authority determines whether a physician or physical therapist is eligible for expedited licensure through the compact and issues a letter of qualification (LOQ) verifying or denying the eligibility to the interstate commission. The LOQ is considered a license under the Administrative Procedure Act, chapter 34.05 RCW, but not regulated under the Uniform Disciplinary Act. A denial does not result in an adverse report to the National Practitioner Data Base. Individuals receiving a denial letter are entitled to an appeal process appealing the decision. While appeals of the denial letters may qualify under the application of a brief adjudicative proceedings rule, WAC 246-11-420 (1)(a), the department will consider adding additional language to make it clear that a brief adjudicative proceeding would apply to interstate compact licensure.	<a href="#">Pre-Proposal</a>					MONITOR	Cara Helmer Carah@wsa.org

After consultation with the applied behavioral analysis advisory committee, the department is taking the opportunity to consider updates for a variety of issues. Updates may be needed to clarify requirements as well as possible alignment with current best practices and national standards. Rules may be needed to create a temporary license as allowed by RCW 18.380.080, as well as consider establishing a corresponding temporary license fee. Fees for duplicate licenses or license verification may need to be reduced to align with similar department fees for other professions. The department may update terms, references, and citations as needed, and will consider repealing requirements for AIDS training per recently passed legislation (ESHB 1551; chapter 76, Laws of 2020).	<a href="#">Pre-Proposal</a>					MONITOR	Cara Helmer Carah@wsa.org

3	Home and Community-Based Medication Assistance	Department of Health	The commission completed a nearly three-year process in July 2020 to update and consolidate all rules under its authority, resulting in the creation of chapter 246-945 WAC. Although this process included extensive work with interested parties, it was brought to the commission's attention, once the new chapter was published, that the repeal of chapter 246-888 WAC resulted in unintended disruptions for medication assistance in the community-based and in-home care settings permitted under chapter 69.41 RCW.	<a href="#">Pre-Proposal</a>					NEUTRAL	Cara Helmer Carah@wsha.org

Second, the department will consider amending WAC 246-811-076 based on a petition received by the department in 2018. This potential amendment would add pharmacists as a profession eligible for the alternative training path, which allows members of certain health professions to be credentialed after completing abbreviated education and experience requirements. Finally, the department will consider removing the reference to an obsolete training from WAC 246-811-300, as the original statutory requirement for AIDS training was repealed in 2020 and subsequently removed from department rules.	<a href="#">Pre-Proposal</a>					SUPPORT	Cara Helmer Carah@wsha.org

3	Vital statistics—Certificates	Department of Health	Three significant statutory changes to vital records caused a need for rule making. First, passage of ESSB 6037 (chapter 6, Laws of 2018), Uniform Parentage Act (UPA), expanded surrogacy rights and duties, included surrogacy in the birth registration process, and recognized the diversity of families and nonbiological parent-child relationships. UPA updates also included broader definitions of the term "parent" and "parentage" to recognize and protect the diversity of families and nonbiological parent-child relationships. Second, in 2019, the legislature repealed chapter 70.58 RCW and replaced it with chapter 70.58A RCW, Vital statistics, to modernize vital record processes. Chapter 70.58A RCW includes the following new or clarified elements: •Limits access to certified copies of birth and death records to qualified applicants. •Gives the department authority to amend vital records and transfer custody of records to state archives. •Updates references and definitions that reflect the 2018 changes to the UPA. •Creates a right to appeal some decisions made by the state registrar. Third, the legislature added a certification of birth resulting in stillbirth through HB 1031 (chapter 55, Laws of 2021) (RCW 70.58A.530). The department created a new certificate that provides families a way to honor stillbirth. 3	Amending the Hazardous Waste Planning Fee (planning fee)	Department of Ecology	Ecology establishes the planning fee in part on the risk associated with the type of waste generated. Fees for EHW are subject to a risk factor (a multiplier) that is 10 times higher than for DW. However, WAC 173-305-220 doesn't state which risk factor applies to an individual waste stream that is both DW and EHW. This lack of clarity leads to inequitable fees for some businesses. Businesses that generate and report a waste stream that is both DW and EHW pay a higher fee than businesses that generate the same waste stream but don't report the EHW code. We will consider adding language to WAC 173-305-220 to clarify that fees for these waste streams should be calculated as DW only. In this rule making, we intend to: •Prevent an inequitable financial impact to facilities that report both DW and EHW codes for an individual waste stream without changing how those facilities manage waste. •Increase transparency by clarifying how ecology applies risk factors to the planning fee formula. •Codify the practice outlined in the interim policy for the hazardous waste planning fee, or closely related modifications to this practice.	<a href="#">Pre-Proposal</a>					MONITOR	Remy Kerr remyk@wsaha.org

Under gubernatorial suspension of training rules and coordinated efforts to expand opportunities for remote training during the COVID-19 pandemic, DSHS contracted with a DSHS approved training company to conduct a pilot basic training program in which skills would be taught, demonstrated, reinforced, and remediated remotely. Data from student Prometric skills test pass rates for students involved in the pilot revealed success at a rate equal to that of students trained in person. The success of the pilot indicates that remote skills training is not only feasible but can also be effective. Remote skills training has the potential to greatly increase the ability for students in remote areas to access training, and in turn augment an already strained long-term care workforce.
