1	COVID-19: Expanded telehealth, testing coverage, and extended premium grace periods	Office of the Insurance Commissioner	This order: (1) Expands coverage to additional methods for providing telehealth including telephone and video chat tools such as FaceTime, Facebook Messenger video chat, Google Hangout video, Skype and GoToMeeting; (2) Covers all medically-necessary diagnostic testing for flu and certain other viral respiratory illnesses billed during a provider visit for COVID-19 with no copay, coinsurance or deductible; (3) Treats drive-up testing sites for COVID-19 as provider visit with no copay, coinsurance or deductible. OIC is also directing health insurers to waive or expedite prior authorization requirements for home health care or long-term care facility services.	03/24/20	Emergency Rule		SUPPORT	Andrew Busz Andrewb@wsha.org
1	COVID-19: Waiver of Certain Nurse License Fees	Department of Health	The Washington state department of health is waiving certain nursing fees that impose barriers to recruiting nurses who have inactive licenses or expired licenses for three years or less. The department is issuing this waiver in response to the coronavirus disease 2019 (COVID-19) public health emergency to maximize the availability of nurses across the state. Governor's Proclamation 20-32 waived additional measures: Continuing education requirements and certain education requirements for reactivating a license.	03/31/20	Final Order		SUPPORT	Zosia Stanley zosiaS@wsha.org
1	Hospital Reporting to Regional Health Care Coalitions	Department of Health	Every hospital in this state licensed under chapter 70.41 RCW shall report to the health care coalition in the hospital's region any data or information that is requested by such health care coalition or the Department of Health.	04/03/20	<u>Order</u>		SUPPORT	Zosia Stanley zosiaS@wsha.org
1	COVID-19: Schedule II Prescriptions	Pharmacy Quality Assurance Commission	The emergency rule amends WAC 246-887-020 and increases the duration of time a practitioner has to deliver a signed prescription when authorizing an emergency prescription of a Schedule II substance to the pharmacy from seven days to fifteen days. It also defines what a "signed prescription" means and allows for a practitioner to accomplish this requirement through paper, electronic transmission, facsimile, photograph, or scanned copy. These alternative methodologies support patients, practitioners, and pharmacists efforts to practice social distancing and to help mitigate communal spread.	04/21/20	Final Order		SUPPORT	David Streeter DavidS@wsha.org

1	Removing Epidiolex from Schedule V	Pharmacy Quality Assurance Commission	The Pharmacy Quality Assurance Commission has adopted emergency rules filed under WSR 20-15-059 on July 10, 2020, to remove Epidiolex from Schedule V controlled substances WAC 246-945-056 to align with federal law. Epidiolex is no longer considered a controlled substance. This rule is effective immediately and will remain in effect for 120 days. This emergency rule was already in effect on WAC 246-887-180, but was refiled to correspond to the new chapter recently adopted by the commission. Epidiolex is an FDA-approved cannabidiol with less than 0.3% THC, used to help treat some seizure disorders. De-scheduling Epidiolex aligns Washington state rule with the enactment of the 2018 Agricultural Improvement Act (2018 Farm Bill), excluding hemp from schedule I in the Controlled Substances Act and removing it from the definition of marijuana. The 2018 Farm Bill declassified hemp products with not more than 0.3% delta-9 tetrahydrocannabinol (THC) on a dry-weight basis.	07/10/20	Emergency Rule		SUPPORT	David Streeter
1	COVID 19: Schedule II Prescriptions	Pharmacy Quality Assurance Commission	The Pharmacy Quality Assurance Commission adopted emergency rules to reduce burdens on patients and practitioners when prescribing Schedule II substances during the COVID-19 pandemic. The emergency rule amends WAC 246-945-010 and increases the duration of time a practitioner has to deliver a signed prescription when authorizing an emergency prescription of a Schedule II substance to the pharmacy from seven days to fifteen days. The emergency rule also redefines what is a "signed prescription." 1	Single Bed Certification Emergency Rules	Health Care Authority	This rule making is required to comply with the requirements in 2ESHB 1388 which changed the designation of the state behavioral health services, effective July 1, 2018. The single bed certification rules were previously filed under Preproposal statement of inquiry WSR-18-14-080 and Emergency rule-making order WSR 19-13-057, as WAC 182-538D-0526. The rule making under WSR 18-14-080 was finalized under WSR 19-24-063. Rule making for single bed certification continued through a separate rule-making progress as the agency develops the program. Single bed certification rules are renumbered from WAC 182-538D-0526 to 182-100-0200 to reflect that it is not solely a service under medicaid. Since the emergency rule making filed under WSR 20-13-011, health care authority (HCA) filed the Proposed rule making (CR-102) under WSR 10-15-147 on July 21, 2020. HCA held a public hearing for the proposed rule on August 25, 2020. 1	COVID-19 Notifiable Condition	Washington State Board of Health	The Washington state board of health has adopted a second emergency rule to continue to designate COVID-19 as a notifiable condition and extends reporting requirements for health care providers, health care facilities, laboratories, and local health jurisdictions to report race, ethnicity, and other demographic data for cases of COVID-19. The rule establishes what testing and demographic data need to be reported as well as the timing and mechanism of reporting. The rule allows for certain waivers by a local health officer. This emergency rule will continue to require specific data elements to be reported with COVID-19 test results. This rule is more closely aligned with United States Department of Health and Human Services (HHS) laboratory data reporting guidance and reflects reporting requirements that can more reasonably be collected through the current public health reporting structure. The existing emergency rule incorporates HHS guidance and also requires reporting of additional data beyond what is included in guidance, including components such as the patient's race and ethnicity using disaggregated reporting categories, the patient's primary language and emergency contact phone number, and responses to "ask on order entry" questions. This emergency rule will take effect upon the expiration of the existing emergency rule.		Emergency Rule		SUPPORT	David Streeter DavidS@wsha.org

1	COVID-19 Nursing Home Rules	Department of Social and Health Services	The continued threat of COVID-19 to our most vulnerable populations is significant, especially for those receiving long-term care services in their homes and congregate settings, such as long-term care facilities. Current nursing home rules require physicians perform certain tasks. The rules also restrict the frequency of delegation from a physician to a registered nurse practitioner or a physician assistant, depending on the payor source of the resident and whether the bed the resident occupies is certified for medicare, medicaid, or both. The amendment will permit the physician to delegate tasks, even if it is required to be performed by the physician in regulation and regardless of the frequency of the delegation. The amendment does not change the required frequency of physician visits or the requirement for the physician to supervise the delegate. This amendment aligns state rules with federal rules recently amended to permit increased delegation of physician tasks to a registered nurse practitioner or a physician assistant. This amendment provides flexibility for physicians to better prioritize their time and will help to ensure nursing home residents receive assessment and care by a qualified health care provider in a timely manner.	12/24/20	Emergency Rule		SUPPORT	Zosia Stanley zosiaS@wsha.org

2	COVID 19: Nursing Rules	Department of Health	The nursing care quality assurance commission is adopting emergency rules in response to the coronavirus disease (COVID-19). These rules apply to the specific regulatory requirements for LPNs, RNs and ARNPs. The amendments remove specific barriers that nurses face to providing care in response to COVID-19. Waiving the requirement for continuing education removes a barrier for nurses with a retired active license and will allow them to immediately begin working. Waiving the restriction that ARNPs with an inactive or expired license must complete clinical practice hours removes a barrier to rejoining the health care workforce. Allowing LPN students to practice as nursing technicians addresses the demand for more healthcare professionals in the workforce. Amending language to add clarification to the preceptor rules and simulation rules eliminates current obstacles in nursing education to address the demand for more healthcare professionals. Amending the requirements for nurse delegation to waive requirements and streamline the process will remove barriers for nurses to complete high demand duties. 2	TB Screening Waiver Emergency Rule	Department of Social and Health Services	The department is extending the emergency rules listed below to assure [ensure] long-term care programs are not significantly impeded during the hiring process due to inability to access the tuberculosis (TB) testing required as a part of the hiring process. This will help to increase the number of long-term care workers necessary to provide essential services to some of Washington's most vulnerable adults during the outbreak of COVID-19. The situation continues that currently clinics providing TB testing are short of staff and have limited availability throughout the state. These clinics are unable to provide the TB testing required as a part of the hiring process in many long-term care programs. 2	COVID 19: Nursing Rules	Department of Health	The nursing care quality assurance commission is adopting emergency rules in response to the coronavirus disease (COVID-19). These rules apply to the specific regulatory requirements for LPNs, RNs and ARNPs. The amendments remove specific barriers that nurses face to providing care in response to COVID-19. Waiving the requirement for continuing education removes a barrier for nurses with a retired active license and will allow them to immediately begin working. Waiving the restriction that ARNPs with an inactive or expired license must complete clinical practice hours removes a barrier to rejoining the health care workforce. Allowing LPN students to practice as nursing technicians addresses the demand for more healthcare professionals in the workforce. Amending language to add clarification to the preceptor rules and simulation rules eliminates current obstacles in nursing education to address the demand for more healthcare professionals. In particular, HCA will prevent auto-assignments of new clients to any plan that has a statewide market share of greater than 40% in Apple Health IMC. This rule does not affect voluntary plan choices by clients, the Family Connect policy, or the Plan Reconnect policy. HCA is amending WAC 182-538-067 to clarify when the agency will adjust the number of its IMC plans, either overall or on a region-to-region basis. In determining whether to make any such adjustment, HCA will consider statutory requirements as well as enrollment needs, the performance of the plans with respect to behavioral health integration, and the promotion of access to care for behavioral health services.	10/25/20	Final Order		MONITOR	Shirley Prasad ShirleyP@wsha.org
3	Refugee Medical Assistance	Health Care Authority	The agency is amending subsection (8) of WAC 182-507-0130 to specify circumstances under which an individual may receive additional months of refugee medical assistance benefits. During the course of this review, the agency may identify additional related changes that are required in order to improve clarity or update policy.	11/08/20	Final Order		SUPPORT	Alicia Eyler aliciae@wsha.org
3	COVID-19: Electronic Document Filing	Department of Health	This emergency rule amends the procedural rules applicable to adjudicative proceedings conducted by the Department of Health and health professions boards and commissions in order to facilitate filing and serving documents during the restrictions put in place by the governor in response to the pandemic.	11/26/20	Emergency Rule		SUPPORT	David Streeter DavidS@wsha.org

3	Consolidated Health Care Rulemaking	Health Care Authority	In 2019 and 2020, the legislature enacted several new laws including SHB 2338, ESHB 2642, ESHB 1879 and SSB 5889 that relate to accessing and receiving health care services and benefits through health plans, short term limited duration medical plans and student health plans. Multiple provisions of OIC rules in chapter 284-43 WAC must be amended to be consistent with the new laws. This consolidated rulemaking proceeding is necessary to ensure that rules are adopted by OIC prior to January 1, 2021.	12/24/20	Final Order	Rule Page	MONITOR	Shirley Prasad ShirleyP@wsha.org
4	Reference Updates for Washington Medical Commission	Washington Medical Commission	The Washington medical commission (commission) is adopting amendments to these sections of rule to change all references to medical quality assurance commission to Washington medical commission in accordance with SB 5764 (chapter 55, Laws of 2019).	04/25/20	Final Order		SUPPORT	David Streeter DavidS@wsha.org
4	Medical Marijuana Consultant CPR Certification	Department of Health	Current rules require an applicant to obtain a cardiopulmonary resuscitation (CPR) card from a course that includes both written examination and skills demonstration in order to receive or renew their certification. The Department of Health is amending this rule to temporarily suspend the skills demonstration portion of the CPR requirement. This emergency rule allow[s] an applicant to move forward in the application process without the need to obtain CPR training from an in-person training course and allow them to continue with licensure and serving the cannabis patient community.	06/01/20	Emergency Rule		NEUTRAL	Alicia Eyler aliciae@wsha.org
4	Apple Health Income Eligibility	Health Care Authority	In response to the current public health emergency surrounding the outbreak of the coronavirus disease (COVID-19), along with the governor of Washington's emergency proclamations related to COVID-19, this rule making is necessary to preserve the public health, safety, and general welfare by identifying income that the agency does not count when determining apple health eligibility.	06/05/20	Emergency Rule		SUPPORT	Andrew Busz Andrewb@wsha.org Alicia Eyler aliciae@wsha.org

4	Apple Health Eligibility Emergency Rule	Health Care Authority	Since the previous emergency rule making filed under WSR 20-13-013, the health care authority (HCA) revised the emergency text and is working through the review steps for the permanent rule-making process. HCA revised the rule text in subsection (1) to remove the word "Economic" from Federal Pandemic Unemployment Compensation and added the acronym FPUC. HCA added a new subsection (3) which disregards all unemployment compensation issued as a result of the federal Disaster Relief Fun [Fund] authorized for states to offset lost wages due to the COVID-19 pandemic, known as lost wage assistance. This additional language aligns with the state plan. HCA also clarified in subsection (7) that any income received as unemployment compensation not described within this section is otherwise countable and the agency counts it when determining MAGI-based apple health eligibility. MAGI-based was missing from the previous revision.	10/02/20	Emergency Rule		SUPPORT	Andrew Busz Andrewb@wsha.org Alicia Eyler aliciae@wsha.org
