DELTA Day & ACCELERATE Webinars

About DELTA Days

A DELTA Day is WSHA's most intensive training to develop skills and knowledge required to immediately implement safety and quality pilot programs. It is a collaborative, front-line improvement workshop focusing on shared learning and rapid cycle improvement.

About ACCELERATE Webinars

ACCELERATE webinars are work groups that take place in the months following a DELTA Day to support collaboration and implementation.

Commitment of Participation

Organization Name

Point of Contact Name

Point of Contact Email Address

- **We commit to actively participate in the WSHA Fall Prevention and Harm Reduction DELTA and ACCELERATE project.**
- **We commit to identify and document our hospital's organizational goal(s) around reducing falls.**
 - a. We will assure a representative from our hospital is present for each ACCELERATE webinar.
 - b. We will complete a brief pre- and post-self-assessment on our **fall reduction program**.
 - c. We will be actively engaged in ACCELERATE by acting on new learnings and implementing processes that can drive improvement.
 - d. We will be a contributing member of the ACCELERATE activity and participate in opportunities to share learnings and best practices with our WSHA member colleagues.
