Sign to be removed by Environmental Services after precaution discontinuation and room cleaned.

Display outside door. At patient discharge, remove sign AFTER room is terminally cleaned.

FOR USE WITH CONDITIONS SUCH AS (refer to facility policy):

- Multi-drug resistant organisms (MDRO) and pathogens of epidemiological concern as determined by Facility Policy.
- CPOs, XDROs, VRSA, CRAB, C. auris.

ENSURE TO FOLLOW MANUFACTURERS INSTRUCTION FOR CLEANING SUPPLIES

- Ensure that proper PPE is worn for pathogen exposure AND any chemical exposure from cleaning supplies.

LINEN & WASTE MANAGEMENT

- Bag linen in patient's room. Avoid excessive handling and do not shake linen. For biohazard waste, follow Category B Medical Waste guidelines.

DISINFECT ANYTHING LEAVING ROOM

- Carts, cell phones, sharps containers, bed, wheelchair, etc. are required to be disinfected prior to leaving room.

ROOM CLEANING

- Refer to policy for timing and/or additional disinfectants.
- Enhanced cleaning procedures (e.g., high touch points, hourly, methodology) with addition of privacy curtain changes per hospital procedure.
- Refer to policy for terminal cleaning.

EQUIPMENT & SUPPLIES

- Minimize the number of items that are taken into the room. Ideally
- Only essential equipment and supplies in the room.
- Use dedicated/disposable equipment when available.
- Maintain abundant supplies of consumables.
- Clean and disinfect reusable equipment/patient's room with disinfectant per facility policy.

LAB SPECIMENS/BLOOD TESTS:

- Bring in only the supplies needed to collect ordered samples.
- Exterior of specimen containers will be wiped down, then specimens double-bagged and bag wiped prior to leaving room.

Discontinue precautions per Facility Policy.

Sign to be removed by Environmental Services after precaution discontinuation and room cleaned.
