

## Safe Deliveries Roadmap Maternity Watch Program: MEWT Screen Summary Review Sheet

**Instructions: Use the corresponding MEWT screening tool for at least two weeks and then compile the responses to answer the summary questions below.**

1. Total number of patients screened (goal  $\geq 5$ ): \_\_\_\_\_
2. Total number of patients who met criteria for positive screen by using the screening tool: \_\_\_\_\_

**Please answer the following questions:**

3. Number of patients screened positive for the following MEWT pathways criteria:
  - Infection/sepsis: \_\_\_\_\_
  - Cardiopulmonary: \_\_\_\_\_
  - Severe preeclampsia/hypertension: \_\_\_\_\_
  - Hemorrhage: \_\_\_\_\_ (total)    # Stage 2: \_\_\_\_\_    # Stage 3: \_\_\_\_\_
  - Multiple pathways utilized for a single patient: \_\_\_\_\_  
List: \_\_\_\_\_
4. Whether any positive screens were or were not identified, were the results as you expected? If yes, why? If no, what was unexpected?
5. Were any barriers to communication or other barriers identified?
6. What went well?
