1	Retired Active Pharmacist License Status	Pharmacy Quality Assurance Commission	On March 26, 2020, Governor Inslee signed Proclamation 20-32 to help increase the number of health care workers available to meet the needs of patients during the coronavirus disease 2019 (COVID-19) pandemic. This proclamation included a provision that allows a pharmacist with a retired active pharmacist license status to practice pharmacy. Specifically, the proclamation amended WAC 246-863-080(2) to allow holders of a retired active pharmacist license status to practice pharmacy while the proclamation remains in effect. However, the pharmacy quality assurance commission (commission) recently updated and consolidated all rules under its authority into one new chapter (chapter 246-945 WAC). In this rewrite process the requirements from WAC 246-863-080 and the retired active pharmacist license status no longer exist. Beginning July 1, 2020, chapter 246-945 WAC took effect and the commission no longer enforces WAC 246-863-080. This emergency rule matches the intent of the governor's proclamation by reinstating a retired active pharmacist license status allowing retired pharmacists to practice pharmacy during emergent or intermittent circumstances and assist with the COVID-19 response. This emergency rule also reinstates the process for applying for a retired active pharmacist license and establishes the criteria for returning to active status.	02/01/21	Emergency Rule		David Streeeter DavidS@wsha.org
1	Psychiatric Per Diem Rates	Health Care Authority	This rule is being amended to increase psychiatric per diem rates for community hospitals that serve patients in long-term inpatient psychiatric care. During the course of this review, the agency may identify additional related changes that are required in order to improve clarity or update policy.	02/06/21	Final Order		Andrew Busz Andrewb@wsha.org
1	Emergency Rule: COVID-19 Test Reporting	Department of Health	DOH is adopting an emergency rule to amend WAC 246-338-026 mandating reporting of test results intended to detect SARS-CoV-2 or diagnose a possible case of the coronavirus disease 2019 (COVID-19) in alignment with the federal changes published in 85 F.R. 54820. WAC 246-338-020 is amended to add language referencing the new subsection in WAC 246-338-026. These changes will allow the new reporting, inspection, and fining processes in compliance with the new federal requirements which will ensure the current Clinical Laboratory Improvement Amendments (CLIA) exempt status is not threatened and will respond to the current public health emergency created by the COVID-19 pandemic.	02/12/21	Emergency Rule		David Streeeter DavidS@wsha.org
1	Residential Long Term Care Services Training	Department of Social and Health Services	The department is considering adding new sections to chapter 388-112A WAC, in response to the passage of SB [SSB] 5630 passed in 2013, in which the department shall examine whether additional specialty training categories should be created for adult family homes serving residents with other special needs, such as traumatic brain injury, skilled nursing, or bariatric care.	02/28/21	Final Order		Zosia Stanley zosias@wsha.org

1	COVID 19: Schedule II Prescriptions	Pharmacy Quality Assurance Commission	The Pharmacy Quality Assurance Commission adopted emergency rules to reduce burdens on patients and practitioners when prescribing Schedule II substances during the COVID-19 pandemic. The emergency rule amends WAC 246-945-010 and increases the duration of time a practitioner has to deliver a signed prescription when authorizing an emergency prescription of a Schedule II substance to the pharmacy from seven days to fifteen days. The emergency rule also redefines what is a "signed prescription." These emergency rules have already been in effect on WAC 246-887-020, but were refiled to correspond to the new chapter recently adopted by the commission.	03/05/21	Emergency Rule		David Streeter
1	Repealing Old Pharmacy WAC's	Pharmacy Quality Assurance Commission	The proposal repeals the chapters of rules relating to pharmacy that were replaced by chapter 246- 945 WAC	03/18/21	Final Order		David Streeter DavidS@wsha.org
1	Emergency Rule: COVID-19 Notifiable Condition	Washington State Board of Health	The Washington state board of health has adopted a second emergency rule to continue to designate COVID-19 as a notifiable condition and extends reporting requirements for health care providers, health care facilities, laboratories, and local health jurisdictions to report race, ethnicity, and other demographic data for cases of COVID-19. The rule establishes what testing and demographic data need to be reported as well as the timing and mechanism of reporting. The rule allows for certain waivers by a local health officer. This emergency rule will continue to require specific data elements to be reported with COVID-19 test results. This rule is more closely aligned with United States Department of Health and Human Services (HHS) laboratory data reporting guidance and reflects reporting requirements that can more reasonably be collected through the current public health reporting structure. The existing emergency rule incorporates HHS guidance and also requires reporting of additional data beyond what is included in guidance, including components such as the patient's race and ethnicity using disaggregated reporting categories, the patient's primary language and emergency contact phone number, and responses to "ask on order entry" questions. This emergency rule will take effect upon the expiration of the existing emergency rule.	03/26/21	Emergency Rule		David Streeter DavidS@wsha.org

It continues without changing the emergency rule that was filed on February 12, 2021, under WSR 21-05-048 and the prior filing on October 15, 2020, under WSR 20-21-062.	06/11/21	Emergency Rule		David Streeter DavidS@wsha.org

1	Chapter 246-341 WAC, Behavioral Health Services Administrative Requirements	Department of Health	The Department of Health is considering updating the chapter of rules for licensed and certified behavioral health agencies that will include: (1) Changes to reflect legislation; (2) changes related to federal requirements; (3) requests from partners and stakeholders for clarification, and areas of clean up that have been identified since the department began regulating behavioral health agencies in 2018.	07/01/22	Final Order		Brooke Evans BrookeE@wsha.org
2	Network Access and Notice Requirements	Office of the Insurance Commissioner	Network Access and Notice Requirements, OIC- Amend existing rules and add new sections to align with Chapter 11, Laws of 2019 (ESHB 1099), requiring additional network access standards, in addition to new notices and information being provided about networks and access.	01/11/21	Final Order		Andrew Busz Andrewb@wsha.org
2	COVID 19: Nursing Rules	Department of Health	The nursing care quality assurance commission is adopting emergency rules in response to the coronavirus disease (COVID-19). These rules apply to the specific regulatory requirements for LPNs, RNs and ARNPs. The amendments remove specific barriers that nurses face to providing care in response to COVID-19. Waiving the requirement for continuing education removes a barrier for nurses with a retired active license and will allow them to immediately begin working. Waiving the restriction that ARNPs with an inactive or expired license must complete clinical practice hours removes a barrier to rejoining the health care workforce. Allowing LPN students to practice as nursing technicians addresses the demand for more healthcare professionals in the workforce. Amending language to add clarification to the preceptor rules and simulation rules eliminates current obstacles in nursing education to address the demand for more healthcare professionals. Amending the requirements for nurse delegation to waive requirements and streamline the process will remove barriers for nurses to complete high demand duties. More health care professionals will [be] available to respond to current demands because of these changes.	01/20/21	Emergency Rule		Alicia Eyler aliciae@wsha.org
2	DDA Client Rights	Department of Social and Health Services	The developmental disabilities administration (DDA) is planning to amend these rules to implement SSHB [2SHB] 1651 (2019), which is related to the rights of clients of the DDA. 2	Emergency Rule: DDA HCBS Waiver Rule Alignment with CMS	Department of Social and Health Services	Filing these amendments on an emergency basis is necessary to ensure federal compliance and maintain federal funding for the state. This is the third filing on these sections; however, the rule text in the second filing differed from the rule text in the first filing. The rule text has changed because DDA is progressing through the permanent rule-making process and feedback from stakeholders has resulted in some changes. This third filing is necessary to keep the emergency rule in place until DDA completes the permanent rule-making process. The department filed a CR-101 Preproposal statement of inquiry as WSR 20-20-100 on October 5, 2020, to begin the permanent rule-making process. In addition, under the rule development phase of permanent rule making, DDA has been circulating the text for feedback and progressing through the permanent rule-making process.	02/24/21	Emergency Rule		Zosia Stanley zosias@wsha.org

Department of Social and Health Services	The department is extending the amendment of the rule listed below to assure [ensure] nursing homes are not significantly impeded from admitting and caring for residents during the COVID-19 outbreak. These amendments will align state nursing home rules with federal rules that were suspended or amended to help facilitate care during the COVID-19 pandemic. The federal rules were amended to allow nursing facilities to provide clinical records to residents and resident representatives in ten working days instead of two working days. Current state rules specify clinical records be accessible to residents and their representatives for review within twenty-four hours and copies must be provided within two working days. The amendment lengthens the time nursing homes have to provide the resident access to, or copies of the requested clinical record from two to ten days. ESHB 1551 repeals statutes concerning AIDS education and training for emergency medical personnel, health professionals, and health care facility employees, which helps reduce stigma towards people living with HIV/AIDS by not singling out AIDS as an exceptional disease that requires specific training and education separate from other health conditions.	04/12/21	Final Order		Alicia Eyler aliciae@wsha.org

3	Medical Aid for Injured Workers Rule Update	Department of Labor & Industries	The affected rules describe elements used in the process of updating the maximum allowable payments for most professional health care services. These elements are set in rule in order to follow the established methodologies of the department of labor and industries (L&I) and maintain consistency with the health care authority and medicaid purchasing administration. Specifically, the proposed rule changes will do the following: 1. WAC 296-20-135: Update the conversion factors used by L&I for calculating reimbursement rates for most professional health care and anesthesia services. The conversion factors will be updated to correspond to changes in the medical procedure codes, the relative value units, and anesthesia base units. Cost-of-living adjustments may be incorporated into the changes in the conversion factors. 2. WAC 296-23-220 and 296-23-230: Update the maximum daily reimbursement level for physical and occupational therapy services so L&I may, if necessary, give cost-of-living adjustments to affected providers.	07/01/21	Final Order		Andrew Busz Andrewb@wsha.org

4	Emergency Rule: Apple Health Eligibility	Health Care Authority	In response to the current public health emergency surrounding the outbreak of the coronavirus disease (COVID-19), along with the governor of Washington's emergency proclamations related to COVID-19, this rule making is necessary to preserve the public health, safety, and general welfare by identifying income that the health care authority (HCA) does not count when determining apple health eligibility. This emergency filing is necessary to renew the current emergency rule which is set to expire on May 29, 2021, while the permanent rule-making process proceeds. Since the previous emergency filing under WSR 20-20-075, HCA sent a draft of the rules to external stakeholders for feedback. As a result of comments received, HCA revised these emergency rules to include changing the end date of lost wage assistance to September 6, 2021, and adding the following to the items listed as income disregards: (1) Unemployment compensation received during the public health emergency for certain non-MAGI eligibility groups, (2) payments from the pandemic relief program as authorized by the governor, and (3) federal pandemic unemployment compensation authorized by the Coronavirus Aid, Relief, and Economic Security Act of 2020 and extended by the American Rescue Plan Act of 2021.	05/06/21	Emergency Rule		Alicia Eyler aliciae@wsaha.org

The order prohibits the agency from applying prior versions of these rules to requests for ABA therapy from individuals over twenty years of age. 4	Provider Fees for Search and Duplicating Health Records	Department of Health	The definition of "reasonable fee" in RCW 70.02.010 requires the fee amount to be adjusted every two years. WAC 246-08-400 referenced these adjustments by stating the specific fees that may be charged. The current rule cites RCW 70.02.010 and a specific subsection for the definition of "reasonable fee." As other amendments to the law are made the subsections may change more frequently than the requirement to adjust the fee. The proposed rule amends the language so that frequent formatting updates to the statute will no longer impact the rule. The proposed amendment continues to reference RCW 70.02.010 but no longer references the specific subsection and does not change the meaning or intent of the rule.	06/18/21	Final Order		David Streeter DavidS@wsha.org
