**ZeOmega Panel Discussion: The Next Evolution of HIE**

**Complementary Webinar: ZeOmega, Signal Health, and MIN-NS Discuss the Next Evolution of HIE**

**Register now, click [here!](#)**

Effective health information exchange (HIE) is essential for successful population health management (PHM) and value-based care initiatives. Jiva™ HIE from ZeOmega® represents the next evolution of HIE. It offers advanced functionality to aggregate data from disparate sources, including numerous EHRs, and ensures that information follows patients at every stop in their care journey. When integrated with the Jiva PHM solution, Jiva HIE goes beyond clinical and claims data to also include lifestyle, demographic, psychosocial, and other determinants to provide care teams with holistic, actionable intelligence where, when, and how they need it.

Please join thought leaders from **ZeOmega**, **Signal Health**, and **MIN-NS** for an insightful panel discussion. During the discussion, the group will share insights on the importance of effective HIE and how augmenting HIE with leading-edge PHM capabilities can give healthcare organizations a distinct competitive advantage in the transition to value-based care.

**Date:** Thursday, June 16, 2016

**Time:** 11:00 a.m. to 12:00 p.m. CDT

**Panelists:** **Jessica Gleason**, health information systems coordinator, **Signal Health**

**Murray Laidley**, program manager, **Medical information Network – North Sound (MIN-NS)**

**Nandini Rangaswamy**, executive vice president and chief strategy officer, **ZeOmega**

**Tony Sheng**, HIE customer service representative, **ZeOmega**

**Moderator:** **Matt Adamson**, vice president of client relations, **ZeOmega**
